DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This brick house which is located in the middle of the block is $3\frac{1}{2}$ stories high and 3 bays wide, and was built around 1873. It is laid in running bond. The doorway, framed in marble, ~~has a basket handle arch~~ and ~~has~~ a transom. Six steps lead to a stoop before a vestibule and inner door. All the windows except the attic are rectangular, ~~one over one~~ lights with flat-arched brick lintels and marble sills. The ~~slate-shingled~~ Mansard roof, rising above a projecting cornice which is supported by brackets, is pierced by two full-arched dormer windows, the surrounds of which appear to be wood.

Above the third story windows are recessed brick features which are purely decorative, adding interest to an otherwise plain area.

The attic has a pavillion similar to the other houses in the group. The dormers windows are double hung with 2/2 lights. Two window openings puncture the marble ashlar base, and are filled with glass block. Above the projecting marble belt course tall first floor windows rise to the height of the entrance openings. Original double panelled wooden doors fill the entranceway.
